

# From Classroom to Career – CLIMB with Ascend

**Are you a new graduate or contemplating a bold career shift? Do you thrive on tackling challenges and crafting innovative solutions?**

**CLIMB (Consultants Learning IT, Management, and Business)** is a career development program crafted by Ascend Partners to empower new graduates and working professionals with practical expertise in Enterprise Performance Management (EPM) through OneStream.

Embark on a transformative journey with our 12-week paid apprenticeship and 2-year associate program, offering dynamic training, personalized mentorship, and hands-on business applications to fast-track your professional growth. Successfully completing this program will position you as a sought-after OneStream expert and visionary leader in a competitive, talent-hungry landscape.

A photograph of two mountaineers climbing a steep, rocky cliff face. The scene is illuminated by the warm, golden light of a setting or rising sun, creating a dramatic silhouette effect. The climbers are positioned on the left side of the frame, with one slightly higher than the other, both appearing to be in the process of ascending. The background shows a vast, hazy sky with soft clouds, and the overall mood is one of challenge and achievement.

## What is OneStream?

OneStream is the fastest-growing Enterprise Performance Management (EPM) and Corporate Performance Management (CPM) platform, transforming financial processes for over 1,200 customers around the world. Recognized as a Top Quadrant leader by Gartner, OneStream empowers businesses across industries like mining, manufacturing, real estate, higher education, and retail.
